

CHARGING STATION™

So What is Charging Station™ All About

We are here to power each other up, recharge our batteries, reignite our passions and be total badasses while doing it.

Charging Station™ has a baseline of support and function built in. There is weekly encouragement, monthly challenges, the opportunity for accountability with Power Partners and facilitator support.

We grow faster when we grow together. Encouragement, support and high vibes are the norm in the **Charging Station™** tribe. We expect you to bring your best, and get the best here.

The Core Values of the Charging Station™

Be your authentic, professional self.

Be vulnerable and open to growth.

*Actively engage with your **Charging Station™** tribe.*
